

## Welcome

The Black History Month Group continues to organise a calendar of events to help celebrate International Black History Month, which takes place during October 2004.

The group hopes to expand the project to encourage all of Liverpool's diverse cultures and racial minority communities to join in celebrating the history of Liverpool's people of African Diaspora, and also encourage and support other black and racial minority communities to celebrate their histories.

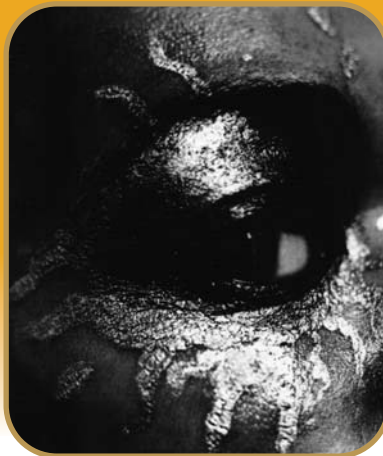

### Black History Month Group *Mission Statement*

To celebrate the histories of people of African Diaspora in Liverpool and Merseyside through the public recognition and acknowledgement of the positive contributions and aspirations of all our black communities to the history and future of social, economic, cultural and life of our City.

Creating and developing understanding with and between all of Liverpool's different cultural and racial communities, by insuring that all communities are informed of and welcomed to our events.

Further information on all events can be obtained on
